

Protect yourself and your family from an unexpected death and critical illness.

More people are suffering from a critical illness than ever before. Chances are you have seen first hand the financial hardship that either a relative, close friend, or co-worker has had to endure during the recovery process of a critical illness. In order to enhance our current benefit plan, we will be offering employees and their family a new Term to 100 Life Insurance option that includes Critical Illness Benefits. Most employee benefits plans are designed to cover specific expenses. But, The Family Protection Plan from 5Star Life Insurance Company pays a one-time lump sum of 30%* of the policy benefit in cash directly to the owner—in addition to any other insurance plan the insured may have! There are no restrictions on how this benefit is used.

Covered critical illnesses include:

- Heart Attack
- Life-Threatening Cancer
- Stroke
- Cardiac Bypass Surgery
- Heart Transplant Surgery

This benefit is also paid for terminal conditions.

* 25% in Michigan
