## *The FPP-TI Plan Offers:*

### ***Term Insurance to Age 100***

Offers a guaranteed level premium to age 100 and guaranteed level death benefit for the first 10 years. However, after 10 years the death benefit is projected to remain level to age 100 and we do not anticipate a reduction in the future. Face amounts can not be individually decreased on a particular insured due to a change in age, health or employment status.

### ***Family Protection***

You can purchase coverage on yourself, your spouse or children.

### ***Low Premiums***

The FPP-TI Plan is level premium to age 100. Tobacco users and non-tobacco users share the same low cost rate. These special rates only offered through your employer.

### ***Convenience***

Premium payments are deducted from your paycheck. You won't have to worry about missing a payment, writing checks, or buying a stamp.

### ***Easy Qualification***

There is no routine medical exam required for The Family Protection Plan. You simply need to answer a few health questions on the application to be considered for coverage.

### ***Ongoing Coverage***

Your policy goes with you when you retire or if you change jobs—at no increase in premium or reduction in coverage.

### ***Voluntary Participation***

There is no pressure to buy. You can meet individually with a counselor to design the right plan for you. It's your choice.
